

Staff Report

Report number: DRAIN2019-10-15

Prepared by: Grant Collins, Drainage Superintendent

File Number: 1075

Subject: Bruce Beach Drain addition

Date: Oct. 21, 2019

1 Attachments:

[Petition for Drainage Works by Owners Form 1](#)

Recommendation:

That the Township of Huron-Kinloss Council hereby approves Report Number DRAIN2019-10-21 prepared by Grant Collins, Drainage Superintendent, and in so doing appoints Dietrich Engineering Ltd., Consulting Engineers of Waterloo to address the concerns of the petitioners as part of the overall Bruce Beach Drain Report.

Background:

After the information meeting for the Bruce Beach Drain in May of 2019, some of the petitioners indicated that they had specific drainage issues within the larger watershed. In conversation with them, it was indicated that they would need to sign a separate petition to address those concerns, however it could be incorporated as part of the overall project as a separate branch.

The issue is water coming off the lots above the hill and occasionally water coming down the 8th Concession Road that sometimes is not handled by the current drainage system.

Comments:

Although the Drainage Act procedure must be followed, this addition should not cause an undue delay in the Bruce Beach Drain project.

Financial Impact/Budget Implications:

There may be some assessment to Township Roads in the solution to this problem.

Alignment to Sustainability Plan Goals and Directions:

The information provided in this report is consistent with and in keeping with the Municipality's Vision and Mission. The recommendations contribute to our goals in achieving a prosperous community, an accessible community and an environmentally conscious community.

Respectfully submitted:
